Subject: RE: Lab Renovation

thanks Jim. I will forward to Grace. Don't worry we haven't signed anything yet, because we felt it needed more detail.

Subject: Lab Renovation

Hi Julie,

UMass Facilities and Planning and Architects from Dietz & Company toured lab last week to draw up construction plans for lab renovation. They had a few questions:

1. Will DPH or UMass be responsible for wiring server and computer stations?
2. Will workers renovating the lab need CORI checks?

We also discussed proposed security. The plan for a hallway camera, is for a recording and not a live monitor. They also have no plans for finger tip scans or magnetic cards for lab entrance. I think we should ask for more security, we really need a stronger method of restricting entrance to lab.

Thanks,

Jim
